**Subject:** FW: 4-Methylcyclohexane Methanol

Tom,  
I have had some email exchanges with the Indiana about obtaining product, standard and other lab resources in case they will perform sampling and/or analysis.

Patti Kay

Just an update, the standard we are getting from Cincinnati Water Works is from TCI (not ITC mentioned in earlier email) and Eastman has finally gotten back with me.

Thank you for your assistance. I am not sure that we will be taking samples but I think we are suitably positioned to respond to any requests from our Evansville facility.

I can follow up if we do or do not sample if anyone wants to know.

This is sold through Eastman Chemicals. The raw product is a mixture of chemicals, for analytical purposes you will need a standard.

Thank you for the responses. I've been in contact with Test America.  
They are running it in Canton, OH and Philly.  
They have a contact person:

[Ex. 4 - CBI]

@testamericainc.com

[Ex. 4 - CBI]

If anyone has any info where I can obtain some raw product, I would appreciate contact info.

Thanks
